LeetCode

EDUCATION

•B.Tech – Industrial Internet of Things

University School of Automation & Robotics (USAR), Delhi

CGPA: 7.87

2021 – 2025

EXPERIENCE

•Full Stack Developer

Anarish Innovations Pvt. Ltd., Faridabad (Hybrid)

Feb 2026 – Present

- Engineered and deployed scalable full-stack web applications using **Next.js**, **Angular**, **React.js**, **Node.js**, and **Tailwind CSS**, delivering responsive, pixel-perfect UI implementations from Figma designs.
- Built a comprehensive **IMS (Inventory Management System) SaaS platform** featuring inventory tracking, role-based access control (RBAC), analytics dashboards, order workflows, billing, and reporting modules.
- Architected and optimized **PostgreSQL** database schemas while integrating **Strapi CMS** for dynamic content management, significantly improving system maintainability and reducing manual operational effort.
- Integrated and managed **Cloudinary** for secure media handling, real-time image transformations, optimized asset delivery, and CDN-based performance enhancements across production environments.
- Containerized applications with **Docker** and managed deployments on **Railway**, streamlining CI/CD pipelines, improving scalability, and enhancing deployment reliability.
- Collaborated in Agile development cycles, independently owned features end-to-end, performed debugging and performance optimization, and maintained high standards for code quality, scalability, and security.

•Full Stack Developer (React.js + FastAPI)

Naarivo Creations, Faridabad (On-site)

Oct 2025 – Jan 2026

- Independently built a **production-grade FOIA automation system** covering all U.S. states/counties for large-scale article monitoring.
- Integrated **GPT-based LLM APIs** for automated structured insight extraction from unstructured data, achieving **~90% extraction accuracy**.
- Used **Supabase** as the primary database and auth provider; deployed the full application on **Render** with zero-downtime workflows.
- Developed scalable Python pipelines for article fetching, parsing, and RESTful API design with FastAPI.

PROJECTS

•AtEats – Full Stack Food Ordering Platform

Live Demo

MERN Stack, TypeScript, Next.js, Redux, Zustand, Zod, Stripe, Tailwind CSS, JWT

- Full-stack food ordering app with JWT auth, email verification, role-based access (admin/user), and **Stripe payment integration** with webhooks for order confirmation.
- Admin panel with full CRUD for restaurants, menus, and orders; used **Zustand** for global state and **Zod** for end-to-end schema validation.
- Mobile-first UI built with Tailwind CSS; reusable component architecture with clean React Router navigation.

•E-Commerce Platform

Live Demo

React, Redux, Styled-Components, Material UI, Cloudinary

- Responsive, modular e-commerce frontend with Redux state management and reusable component architecture.
- Integrated **Cloudinary** for optimized product image delivery; ensured cross-browser compatibility and accessibility.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, C++

Frontend: React.js, Next.js, Angular, Tailwind CSS, Redux, Zustand, Zod, Styled-Components, Figma (Pixel-Perfect)

Backend: Node.js, Express.js, FastAPI, Strapi CMS, REST APIs

Databases: MongoDB, PostgreSQL, MySQL, Firebase, Supabase

AI/LLM: OpenAI GPT API integration, prompt engineering, LLM-powered automation pipelines

DevOps & Cloud: Docker, Railway, Render, Git/GitHub, Cloudinary, CI/CD workflows

Achievements: HackerRank 5 • LeetCode 200+ problems

LEADERSHIP

•Management Coordinator – Google DSC

GDSC Introduction Event, USAR, Delhi

Aug 2023

- Coordinated a 400+ attendee tech event; managed logistics, speaker scheduling, and volunteer teams.
